Foreword

Supreme Yogi Lord Shiva

Dear Students,

Thank you for choosing AyurYoga Eco-Ashram for your spiritual Retreat.

We are a group of spiritual teachers and practitioners coming together, to pass on the traditional wisdom of Indian yogis that we are very fortunate to receive from our venerable Gurus.

The age-old Indian wisdom of Yoga has been passed on from generation to generation through Guru-Disciple lineage – after going through rigorous ashram life for decades. But nowadays, the times are changing and the sacred wisdom is disappearing even from its motherland! Moreover it has been misinterpreted and reduced to few fitness practices and new age techniques for so many silly reasons.

What is available in the present day spiritual market is good and helpful for many people. But there is a small section of seekers who wants to explore yoga in its original form. For such seekers, it is not easy to find the genuine Gurus who are inevitable bridges unto that supreme Wisdom - Consciousness - Bliss - Peace, which yoga promises.

Although we are not such great gurus to give you these elevated mystical experiences, we can at least be guides in leading you further on this pathless path. At the same time, fulfilling your professional and practical requirements.

What we do is, present you the path of yoga in a Big Picture. Instead of teaching the one or two forms of yoga, we want to take you to the source and principles of yoga, that have inspired thousands of seekers for thousands of years. Once you know the principles, we expect you to design your own style of yoga as per your needs and creativity.

More than what we teach you, the actual experience of being together in an international community of seekers, and going through intensive spiritual training itself is a life transforming step.

We look forward to receive you here and giving you our best.

Namaste!

Getting Ready

PASSPORT

Make sure your passport is valid for six months at least, from the landing date in India. If not, consult the nearest Indian embassy or consulate.

Please bring three photocopies of passport and Visa along with you and keep one with your family, in case if you loose the passport on the way.

VISA

An Indian Visa is necessary for all foreigners to enter into India. Please google for your local Indian Embassy website to find out how many days it takes to get an Indian Visa. Sending your passport to embassy or visa office by post can take a week or two. In some countries, you can walk in personally and get the Visa on the same day.

'*Tourist Visa*' is easy to get, inexpensive, and doesn't need much paper work. Please note you can't get *Student visa*, for doing a month long yoga course in an ashram. Student Visas are only for long-term academic courses in University/colleges. While filling in the Tourist Visa application, write the reason for travel as '*Vacation*'.

Please be on time in applying for visa. Sometimes, we have students compelled to cancel the trip due to the delays in getting visa, after buying flight tickets and paying deposits.

INSURANCE

If you are a first timer to India, it is better to get some sort of Insurance that covers your travel and health together.

Wikipedia has a useful page, and Google gives you loads of pages on *travel insurance*: http://en.wikipedia.org/wiki/Travel_insurance

VACCINATION

Please check with your personal doctor and also the Visa authorities. For some nationalities, it is mandatory to take the Yellow Fever Vaccination to land in India. Rules may change from time to time.

Our street wisdom says, Mysore is one of the healthiest places in India and doesn't require any vaccination, as long as you are careful with drinking water and eating food at right places.

Malaria Vaccination is not necessary if you are coming only to our ashram – we rarely see any mosquitoes here. You can also buy Malaria tablets, anti-mosquito creams, and lemon-grass oils, which are available in India.

INCREDIBLE INDIA

India is a complex thing to understand, like the Indians you might have seen! Here you will find a hotchpotch of everything that a human mind could ever conceive - from the most sublime thoughts of 'I am God' to Charvaka idea of Beg-Borrow-Steal to enjoy the life!

The variety of phenomena and cultural contrast you can see here is mind-blowing! The smells and sounds could be tantalizing in the beginning and no-sense of time in India could be testing your patience. But once you get to see the heart of the oldest country on this earth - you can't but fall in love with Indian style of living a life.

When you are in India, don't try to compare anything with the West. Just enjoy the good side of India as it is.

Flying to India

FLYING FIRST TIME?

If you are taking an international flight for the first time, or if you haven't flown for a long time, you might like these smart tips:

[Travel is Fun - Take it Easy](#)

WHEN TO ARRIVE?

It takes at least one/two days to get used to Indian weather, water, food – unless you are an 'outdoor' personality by nature! The body might feel run down in the first week – due new food and new water. So, our street wisdom says, if you have enough time, it is better to come early and chill out for a few days and lighten your heart – before you start feeling the effects of rigorous schedule starting with a 5.30 am wake-up!

If your life is racing with time and can't come to India early - then please arrive on the day before the course starts. You got to rest after a long flight and get orientated to the place.

The course officially begins with 7 am silent meditation and initiation puja (ritual) and presenting the manuals and schedules to students on the start date. On the same day, there will be an Orientation Talk to prepare you mentally and leave the afternoon free if you need to do any shopping and to complete application and payments etc... There will be an optional yoga class on the evening of the same day. The full schedule will come into effect from the next day.

WHEN TO DEPART?

We end the course with certification ceremony and a farewell lunch and cultural program by 2 pm on the last date of the course. You are free to go on the same night, if you have a flight to catch. Otherwise, your accommodation charges include the night of the last day also. You can also stay for one or two days extra after the course by paying \$20/day/private room, \$10/day/twin-share for each extra day.

SEARCHING FOR FLIGHT TICKETS

Momondo is a search engine for flights. You help you find and compare fares from 400+ travel sites. We are not a travel agency, and we don't sell flight tickets. You are always able to make a booking for you to save time and money. We have been recommended by the fine people at: TIME, CNN.com, MSNBC, Entrepreneur, The New York Times, and many others.

Please note flight rates are not same for all the airlines, or routes, and there could be a difference in price for weekdays and weekends. You might get a cheaper ticket by adjusting your dates a day or two...

Our favourite sites are:

<http://www.momondo.com/>

<http://www.ixigo.com>

<http://www.skyscanner.in/> has the option to search from country to country and compare the fares to the nearby airports.

If you need a travel agent to help you with flights, we have an associate travel agent in Dubai who can help you with finding right flights at better rates than websites.

Mysore Airport

There is one small domestic airport in Mysore connecting with flights from Bangalore and Chennai – thrice a week.

But their timings in the afternoon may not be suiting most of you arriving at early morning or late nights.

Most of the students arrive one/two days before and it is possible to share a taxi and fare with one/two more students. Majority of the students arrive between 3 am to 8 am time slots. It is also possible to share taxi while departing from the ashram to Bangalore airport.

If you are getting a cheaper ticket, you can also land in Delhi, Mumbai, or Chennai and then take a connecting domestic flight to Bangalore / Mysore.

AIRPORT PICK UP AND DROP BACK

[Click on this Google Map to see other places close to Mysore](#)

We organize to pick you up and also drop you back at either Bangalore or Calicut or Mysore as per the above listed costs, which can be shared with other students. Most of the students arrive one/two days before the course start dates.

You will have to send us your confirmed e-ticket as we need to know the flight number, airlines and from which airport, besides arrival/departure timings. We will confirm you the booking of taxi by email and also one/two weeks before the course start date, we will send you a PDF file where you can double check your flight details.

Our person will be standing at the Arrivals gate with a placard: AyurYoga Eco-Ashram, Mysore. Also we will give you at least four phone numbers to reach us in case of any difficulty in locating our person.

We don't mind picking you up at anytime of the day/night.

There are two Buses from Bangalore Airport to Mysore non-stop. It takes about four hours and costs about Rs.800. Then, we can organize to pick you up from Mysore Taxi from bus station to the ashram – another one hour drive, costs Rs.1200.

This particular tourist bus departs from Bangalore airport everyday at 10.30 am and again at 03.00 pm. You need to reserve a ticket online in advance from here: <http://www.ksrtc.in/site/>

Mysore

Where East meets West

The town of Mysore is well known for its ancient heritage and great seat of education , arts, food, festivals, ancient temples, green ecology with 186 parks and best weather in South India throughout the year.

Nowadays it is also called as the Yoga Capital of South India, as many international students live here for long stay to learn yoga, arts, music etc. It is a perfectly safe place to explore the ancient culture of South India.

Until 1947, when India was unified after Independence, Mysore was ruled for several centuries by the Royal families of Wadiyars who never lost the battles with any foreign powers and ran the country as the one of the most prosperous and developed kingdoms of pre-independent India. That's why, you can still smell that ancient Hindu Cultural vibes all around, intact from the continuity of at least two thousand years of ancient civilization based on Vedas.

Today, Mysore is a strange mix of India's ancient past and Modern India in rush of development of fancy glitters of the West. It's a place where several foreign tourist stay for a long time to learn India's past while Indians trying to imitate the West ;)

AyurYoga Eco-Ashram

Ashram is a place where people can recharge their spiritual batteries, away from all the distractions of the busy and materialistic world. A secluded space and energy of like minded people in an ashram helps us to take a time off from these compulsive behaviours, attitudes, habits, schedules, obligations of the society and challenge our own beliefs and values that guide our lifestyle. Here, we dare to ask: What am I doing with my life? Why? What do I want? What is the purpose of Life? And each one of us has to find the answers from within.

Our Location:

AyurYoga Eco-ashram is an 18 acres organic farm under development on the banks of River Kabini, with panoramic views of the valleys and hills all around. Situated far away from any hustle and bustle of modern world and surround with agriculture fields for several miles all around – which makes it very scenic with changing colours every month as farmers growing and harvesting varieties of crops one after another.

Though geographically located in the state of Karnataka, the borders of Kerala and Tamilanadu Forest Reserves are less than two hours drive from the ashram.

Accommodation:

At the moment we have 18 rooms, with attached bathrooms inside. Ten of them are wooden cottages and while eight others are made of eco-friendly hollow bricks. All are same in size, facilities, and facing the river and valley on the other side.

Eventually we would like to build more guest rooms to be able to provide a private room to all students. Until then, some rooms are shared by two students and a few rooms for single occupancy.

All rooms are spread around as per Permaculture principles and gives large space, privacy and beautiful views all around.

We provide healthy, nutritious and tasty vegetarian meals, suitable for western yoga students, with a taste of India. We avoid the foods which are not conducive for the intense practice of yoga you will be going through. Meat and Fish products are not provided in our campus.

If the Indian food doesn't suite you, we can provide you porridge, corn flakes, etc as alternative. For gluten-free students, you can easily manage with our food as we always have salad and two vegetable dishes, other than rice dishes.

All meals are served in buffet style – you are welcome to eat as much as you like.

Timings:

07.00 am: Hot Lemon Ginger / Herbal Drink, before Yoga

9.30 am: Salad, Vegetable dishes, Rice, Chapatis (Indian bread), Tea etc.

2.00 pm: Fruit bowl with Juice/Herbal Drink/Tea

You are waking up early around 5 am and also doing a two hour yoga session – so you will need more than a normal breakfast! It is going to be your main meal and feel free to eat as much as you can digest. At this time, we serve rice varieties, chapatti (Indian bread), lentils (Dal/Sambar), salad, vegetable curries, and a dessert occasionally.

No Lunch and it should be fine. If you are eating heavy brunch around 9.30 am, you will not feel hungry for lunch. A light stomach is also required for our afternoon theory and practice classes. But if the rats are running in your tummy we don't expect you to starve. We can arrange for you to eat something. Just feel free to talk to our techers.

Still Starving?

Mysore is notoriously famous for its snacks, bakeries, sweets, chats and coconuts on the streets. Whenever you go out to the town you can also buy dry fruits and other healthy foods from local stores and bakeries.

Drinking Water

We provide filtered water for drinking purpose. Bring a water Bottle.

MONEY MATTERS

The currency in India is Rupees (INR) which you can get from many money exchange banks/agencies/agents in Mysore. Our official money agents will also come to our campus for one or two days at the start of the course to enable you to change money. Please avoid changing money from any Indian airports as they give very low rates, after deducting taxes.

For paying the course fees, room and food charges to us, we accept cash in Euros, Australian/US Dollars, GBP, Indian Rupees or any major currency as per the current exchange rates on www.xe.com. Please check with us if you are not sure about your currency, before bringing here.

If you don't feel comfortable with carrying cash, you can bring Travellers Checks which can be encashed with money agents coming to our campus.

You can also pay us or get cash for yourself, from your Credit/Debit card through the money agents coming to our campus – it is same like drawing from ATM – but with 4% extra commission that agents would charge for processing and carrying cash here. If you want to use this option, please check with your credit/debit about fees they might apply for “Cash Advances Abroad” – tell them it is not ‘purchase’ but ‘cash advance’. Also please make double sure of the restrictions and daily limits.

Plenty of ATMs (Cash Machines) exist all over India – but the amount of money you can withdraw at one time is only Rs. 10,000 (\$160) per transaction. You can use multiple ATMs for multiple transactions.

The Visa/Master pre-paid or gift Credit/Debit cards are other options!

<http://www.westernunion.com/> and www.moneygram.com/ are two popular International Money transfer services – either you or your family/friends can send over money anywhere in the world within minutes literally.

Bank Transfers and Paypal is the last option when all other options fail, as you will have to bear extra cost of 10% to 20% to cover transaction, exchange fees and other taxes for inward remittances in India.

WHAT TO BRING?

Photocopies: Please bring three copies each of your passport main page (the inside cover which has the passport number and photo) and the page that has the India Visa. Also leave one set at home with your family or friends or else you can scan it and keep in your emails as spare copy to print whenever you need. You need copies for 1) our records 2) Police 3) Money exchange etc.

Photo: Please bring two passport-size photos showing your smiling face close-up to attach with the application and another for certificate (for teacher training students).

Yoga Wear: At least three pairs of loose fitting clothes for yoga class, as you are going to sweat during yoga and need to change the clothes often. Cotton garments are ideal for this weather... Silk and synthetic materials or tight fitting yoga wear are not comfortable for tropical weathers here. You can also buy Yoga pants or tops in Mysore for about \$10/pair.

Only for Meditation: We recommend the students to come for morning meditation in fresh clothes after a shower. Wearing fresh white clothes for meditation is helpful, but not mandatory. Otherwise you can keep one pair of clothes just for morning meditation.

Cultural Sensitivities: We request the students to respect the local culture and sensitivities by dressing modestly – covering shoulders, knees and mid-riff and avoiding cleavage at all times in India. It makes a huge impact on how you will be treated/respected by Indians.

Except on the Beach and tourist areas, shorts, mini-skirts, sleeveless tops or displaying your cleavage or belly-button would be attracting unwanted attention and comments. Having a scarf handy is always useful.

Warm Clothes: Please bring a light woolen sweater and a few pairs of socks, as our ashram can be chilly in the nights and early mornings.

Towels & Bedding: You will get bed-sheets, pillows and light blankets from the rooms here. Towels are also provided and changed on demand – though you may bring your own towel for your own comfort.

Toiletries: You can buy the basic toiletries like soap, toothpaste, tooth brush, toilet paper etc.. from local shops. However, the quality of these

products in India may not be up to western standards. Better to bring your own cosmetics or sun creams etc.

For Women: Sanitary pads are available in India - but we hear our students talking something like “not good and not right sizes” etc...
Tampons are NOT available in India.

Yoga Mat: A new yoga mat is provided for all four week courses. And our yoga halls already have plenty of yoga mats. Also possible to buy new mats in our ashram for less than \$10.

Electricity: If you are bringing any electronic equipment or chargers, you may also need a [Universal Plug adapter](#) as your plugs may not fit in India.

A Beginner, Intermediate and Advanced yogis (from left to right) ©

Preparations

Yoga Teacher Training is a professional course with standards to be met by both students and teachers. We have to assess the student's attendance, participation and knowledge and skills of teaching, before certifying him/her as a professional yoga teacher.

This course is intensive and quite demanding both physically and mentally. You need to have prior training of your body to handle two yoga classes – each one lasting for two hours at least, besides 30 minutes stillness meditation in the morning.

You will be sitting for two theory classes a day – 90 minutes each and we also have a few classes/video shows after dinner on alternative nights.

One of the common complaints we hear from students is their bodies and mind are getting tired easily with this kind of intensive schedule... Actually it is a psychological reaction, rather than a physical tiredness. Most of us hate disciplined and being watched and judged. Then our mind reacts in negativity – which can result in frustration and comparing with other students and thinking that teachers are too harsh etc.

To be able to enjoy this program fully, you need to have three things:

1) Preparing your body and breath with regular yoga practice for a few weeks before coming here. So we suggest the students to go to yoga classes or self-practice on your own for at least four weeks regularly.

2) Psychological preparedness and right attitude towards the course and teachers. You have to know that nobody is compelling you to come here or follow the strict schedules. It is your own choice to try this, knowing that it can be challenging physically and mentally.

3) Resting or taking a short nap during the afternoons makes a difference.

So, it is all about opening yourself to the reality of your own body, breath and mind and be ready to accept it without any judgements or comparing with other students.

The course is designed to experience the realities of body-mind-ego!

What you can do before coming here?

Assuming you are not a complete beginner and have been practicing yoga for some time, we want to suggest you to practice this intermediate yoga series to prepare you physically and psychologically for the Teacher Training.

If you can practice this series every day for at least two to four weeks (before the course starts), it will save your time to get your body into practice. Then you will be able to focus more on the subtle and advanced levels of practice and learning teaching.

Yoga Practice

- 1) Six rounds of Sun Salutations
- 2) Single/ Double leg lifts - 10 to 20 times
- 3) Triangle Series – 1 minute on each side
- 5) One/two Backbend Poses - 2 minute
- 6) One/two Forward Poses - 2 minute
- 7) Spinal Twist – 1 minute on each side
- 8) Shoulder Stand – 2 minute
- 9) Fish pose – 1 minute
- 10) Headstand/ Dolphins – 2 minutes

Yoga Nidra: Relaxation

Lie down in Corpse position for at least 5 minutes after yoga.
Feel different body parts, starting from feet upto the head.
Auto-suggest each part to Relaaaaaaxxxx.....

Pranayamas: Breathing Practices

Alternative nostril breathing, without Kumbhaka (retention):
Close the right nostril and breath in through left as much as you can
Close the Left and breath out through right as much as you can
Now Breath in through Right and then breath out through Left

That makes one round. Try for six rounds.

Duration and quantity is not important at this stage. Focus your mind on keeping the flow of breath without a break, jerk, sound or any strain.

Please try to master Kapalabhati – which is very central to Hatha Yoga.

Meditation: 5 minutes

*It is a rare photo of a real yogi
lost in his meditation*

If you are already practising any particular technique, continue with that. For beginners and non-regular meditators, follow the following simple steps. If you are not a regular practitioner, don't sit for more than ten minutes and try it on an empty stomach.

- 1) Sit in any comfortable position, with the upright spine.
- 2) Relax the body part by part – with auto-suggestions.
- 3) Deep and slow Abdominal breathing, till you can exhale at least 16 numbers without a break or jerk.
- 4) Count the number of breaths upto 20 and back to 1.
- 5) Do nothing – just feel your body and watch out thoughts – without judgments or analysis...
- 6) Peace vibrations – either through words or visualizations.
- 7) Fill yourself with the feeling of Peace, Presence, and Contentment.
- 8) Finally, offer the benefit of your practice for the good of the universe.

SUGGESTED READINGS

We want to train yoga teachers who teach from the heart of spontaneous compassion, and knowledge gained through personal experience. The bookish knowledge about yoga is helpful in the starting stages... But if you are limiting yourself by accepting everything in books and teach or learn only what is in books, you are not going to be an authentic source or inspiration for your future students.

So, our first suggested reading is, read yourself. Listen to your body, watch your thoughts, feel your emotions, and feel the life around you. All this needs to be done dispassionately, without analyzing and comparing it with your past knowledge gained by senses, society, or books... By this practice if you gain even a single second of insight... it is more worthy than all the books on yoga in this world.

We want to you to come to our Teacher Training with an open mind and daringness to think and question even what we teach you.

If you can get hold of these books, please go through them:

- 1) “Asana, Pranayama, Mudra and Bandhas” by Swami Satyananda
